About me

I am an enthusiast of free software and open source solutions, unafraid of the challenges presented to me. I've created a library called **vite-express** which amassed more than **500 stars** on GitHub and almost **400k downloads** on NPM. Creating code that is transparent to the programmer and software, that is easy to use for the end user is a key aspect of my work. By combining people with knowledge, enthusiasm and skills you can create a great team able to solve any problem, that's the team I strive to work in.

Experience

IV 2024 - today
Software Engineer @ Slickshift

- Building a chat solution for logistic companies using XMPP standard on a React front-end with custom Python microservices working directly with clients to achieve results best fitted to real use cases.

`TS TypeScript` `React + React Native` `Python`

XI 2022 - III 2024
Software Engineer @ Software Mansion

- Working with an innovative startup from the USA building a social app using React Native.
- Enhancing internal management system for employees using React on a Django backend with GraphQL API.
- Being a part of the team responsible for open-source tools written in Rust used by blockchain developers.
- Building a custom package registry for a blockchain language using Django.

`TS TypeScript` `React + React Native` `Rust` `Django`

VI 2021 - X 2022
Fullstack Developer @ ReasonApps

- Introducing new functionalities and managing the front-end layer of an e-commerce platform that connects influencers with their fans written using Next.js.
- Building a logistics system from scratch for a London-based company using Next.js for the front-end layer, Nest.js for the backend logic and React Native to implement a mobile client. Managing the whole process from idea, through code, up to deployment.

`TS TypeScript` `React + React Native` `Next.js` `Nest.js`

Tech

`TS TypeScript`
`React + React Native` `Next.js`
`Node.js + Express.js` `Nest.js`
`Docker` `Linux` `Git`
`GraphQL + Hasura`
`Python + Django`
`Rust`

Education

X 2023 - today
Politechnika Krakowska
Master of Engineering in Cybersecurity
Part-time

X 2019 - VI 2023
Politechnika Krakowska
Bachelor of Engineering in Computer Science
Part-time
